Hello!

Hey, where is the octopi site gone? qwq  
I want octopi back it was my fav funny site  
~ A friend, April 1st, 2021

I wasn't aware people cared about that page? Anyway, I recreated it [here](#). Where did you find that?  
~R74n

I have a great realltion with octopi i guess!

Did you know that technically, the grammatical plural of “octopus” is “octopodes?” Because in Latin octopus means eight (octo) feet (pus), and the plural of pus (or foot) is pedes (feet).  
I have those two sitting on my Monitor, I've once got them in a packet as a gift. How I found that page? I don't remember exactly, maybe while I was searching Code to paste in my programming projects...

~ A friend, April 4th, 2021 (Also, happy easter!)  
Oh I remember how I found it, i was searching for Unicodes or Emojis and found your page somehow and it was *amazing!*  
~ A friend, also April 4th, 2021
